Have you considered turning your maintenance facility into a profit center (performing maintenance/repair on trucks you do not own or lease)?

All Respondents

We have considered it but decided it would be too much work	14%
We used to do this but no longer do.....	6%
There aren't enough hours in the day to keep our own trucks maintained much less do work on other trucks	39%
We already perform maintenance/repair on trucks that we don't own	25%
Don't know	16%

What is your biggest challenge to effectively using data to drive business profitability?

Data standardization and quality	28%
Too many data sources	18%
Even if I can analyze the data, I'm not always sure how to act on it	9%
Lack of automation. It takes too much time to find what I'm looking for	11%
Too many projects happening at once	20%
I can't get buy-in from management or employees to act on the data collected	9%
Other	5%

Data standardization and quality is the biggest challenge respondents face in using data effectively.
